

ASP and Ethicon teams from Johnson & Johnson Medical joined forces at the latest AICA conference, to showcase a wide selection of “infection prevention solutions”. On display were: MICROSHIELD™, BIOPATCH™, EVOTECH™, Sutures Plus and Dermabond.

This conference was held on October 8-10th at the MCG in Melbourne.

As we all know this was our biggest national infection control conference and it was a great opportunity for us to be present at this event and catch up with our customers.

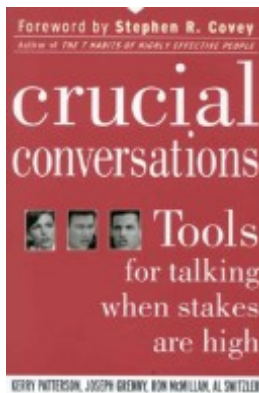

Our double-booth stand was located near the main entrance and delegates were delighted with our raffle prizes, promotional material and the FREE Nudie Juices.

Congratulations to the 10 winners from the Johnson & Johnson Medical raffle!

3 days of conference kept everyone busy attending seminars that covered the latest market news & updates on commission's infection prevention programs; whilst checking out exhibitor displays.

Overall, 2008's AICA conference was a great event and we look forward to doing it all again in 2010!
